## SPECIAL OFFERS

Special offers are coffees that we have discounted for various reasons. It may be because we are overstocked on a particular origin, or that the coffee has fallen below our quality expectations on arrival or a number of months after landing. In both of these situations, we will discount the coffee - we would much prefer the coffee to move at a loss sooner, rather than let the coffee decline over time (as this doesn't do our name, or the producers name any credit). These coffees now represent great value - especially vs. any coffees at that price level on the spot market. All of them have been thoroughly QCed and the notes below represent the most recent cupping notes and list any concerns we have (if there are any) with the quality.

### BOLIVIA

#### Why has this coffee been discounted?

"This coffee has been discounted as it landed at a lower quality than expected. We anticipated this coffee would be cupping between 88-90 points, but have found it to be cupping around 84-85 points. We have cupped the coffee on multiple occasions and have still found it to be clean, with plenty of sweetness, stone fruit acidity and floral characteristics. We believe this coffee will make an excellent single origin espresso or add complexity and sweetness to a blend." - Fleur Studd

BOLIVIA, Caranavi	Finca Los Rodriguez	Java	Washed	Jan-19	Red apple, toffee and dried apricot, with a cocoa powder finish. Clean and sweet.	20	30	Grain Pro	IN STOCK
