SPECIAL OFFERS

Special offers are coffees that we have discounted for various reasons. It may be because we are overstocked on a particular origin, or that the coffee has fallen below our quality expectations on arrival or a number of months after landing. In both of these situations, we will discount the coffee - we would much prefer the coffee to move at a loss sooner, rather than let the coffee decline over time (as this doesn't do our name, or the producers name any credit). These coffees now represent great value - especially vs. any coffees at that price level on the spot market. All of them have been thoroughly QCed and the notes below represent the most recent cupping notes and list any concerns we have (if there are any) with the quality.

ETHIOPIA

Why has this coffee been discounted?

"This coffee has been discounted as it landed at a lower quality than expected. We anticipated this coffee would be cupping between 86.5-87.5 points, but have found it to be cupping closer to 84 points. We have cupped the coffee multiple times, and while we have some QC concerns we have still found many positives in the cup. This coffee presents great floral aromatics and is very sweet, with an appealing stone fruit acidity. We think this coffee will make an excellent single origin espresso, or add sweetness and complexity to a blend." - Fleur Studd

ETHIOPIA, Limu Kossa	Burka Gudina	Heirloom Varieties	Washed	Jul-19	Floral aroma with plum, apple, dark chocolate and tea-like tannins on the finish. Good for espresso.	71	30	Grain Pro	IN STOCK
