## SPECIAL OFFERS

Special offers are coffees that we have discounted for various reasons. It may be because we are overstocked on a particular origin, or that the coffee has fallen below our quality expectations on arrival. In both of these situations, we will discount the coffee. We would much prefer to be transparent about quality and to move the coffee at a loss sooner, rather than let the coffee decline over time - this doesn't do our name, or the producers' name any credit! The coffees have been thoroughly QCed and the notes below represent the most recent cupping notes. These lots still represent great value and are well suited to a number of applications, including filter and espresso. All sales of 'Special Offers' lots are final.

### ETHIOPIA

*The container carrying Worka Chelchele was delayed in transit for many months. At our most recent cupping we found that Worka Chelchele is presenting some woodiness and peanut character in the cup. Despite this, Worka Chelchele Natural still offers fruit-forward sweetness, and will excel as a single espresso or add sweetness and depth to a blend. The coffee has been discounted below cost to more accurately reflect the current cup quality.*
