## SPECIAL OFFERS\*

Special offers are coffees that we have discounted for various reasons. It may be because we are overstocked on a particular origin, or that the coffee has fallen below our quality expectations on arrival. In both of these situations, we will discount the coffee. We would much prefer to be transparent about quality and to move the coffee at a loss sooner, rather than let the coffee decline over time - this doesn't do our name, or the producers' name any credit. The coffees have been thoroughly QC'd and the notes below represent the most recent cupping notes. These lots still represent great value and are well suited to a number of applications, including filter and espresso. All sales of 'Special Offers' lots are final.

While we loved the Kathare Estate lots at offer stage, the coffees have unfortunately landed with slight age in the cup. Both the AB and AA lots still present bright and juicy acidity with stone fruit and brown sugar sweetness, however, there is mild paper and dryness on the finish. These coffees will perform well with more development, to produce a bold single espresso or add depth to a blend. To accurately represent their quality, we have priced them at cost — offering exceptional value on a fully traceable single estate Kenyan lot, sourced with responsible practices.

### KENYA
