SPECIAL OFFERS*

Special offers are coffees that we have discounted for various reasons. It may be because we are overstocked on a particular origin, or that the coffee has fallen below our quality expectations on arrival. In both of these situations, we will discount the coffee. We would much prefer to be transparent about quality and to move the coffee at a loss sooner, rather than let the coffee decline over time — this doesn't do our name, or the producers' name any credit. The coffees have been thoroughly QC'd and the notes below represent the most recent cupping notes. These lots still represent great value and are well suited to a number of applications, including filter and espresso. All sales of 'Special Offers' lots are final.

BRAZIL

In preparation for the upcoming Brazilian purchasing season, we are discounting our lots from the 2023-24 harvest. This is to move the coffees quickly, while they are tasting distinct and delicious, rather than for any major QC concerns. All of the coffees have been cupped recently by our team and cupping notes are updated to reflect the current quality and flavour profile of each lot. We think these lots will perform exceptionally well as single origin espresso, or add complexity and depth to a blend.
